## HOW TO DETERMINE YOUR RING SIZE

Please carefully read all instructions to ensure measurement accuracy.

1. Before printing, make sure that page scaling is set to "None" in your print options.
2. Make sure you are printing to standard 8 1/2 x 11 size paper (A4). Measure the bar on the right to ensure it is exactly 2 inches.
3. Your ring sizer below should be exactly 3 1/2 inches. If measurement is not accurate, check that you are printing the page at full size and reprint before continuing.

### CONFIRM PRINTED PAPER SIZE

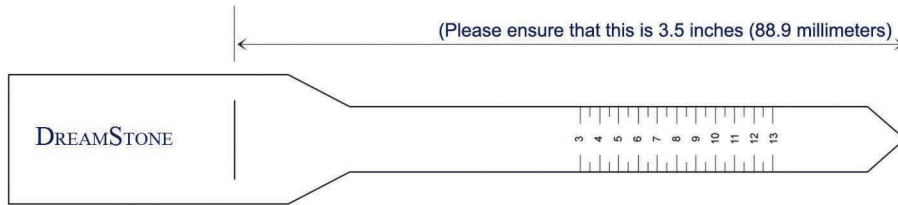

### OPTION 1 - USE RING SIZER TO MEASURE YOUR FINGER

1. Print and carefully cut along the outline of the sizer below.
2. Wrap the ring sizer around your ring finger with the number side visible to you.
3. The sizer must fit snugly around your finger to produce an accurate size.
4. Take note of the number that lines up closest to the slit - that is your ring size.

### OPTION 2 - MEASURE A CURRENT RING

1. Select a ring you have that fits the finger you intended to wear your ring on.
2. Place the ring over the circles below until the inside edge of your ring lines up with a specific circle size. This measurement refers to the diameter of the ring.
3. If your ring falls between two sizes, order the larger size.
