

DREAMSTONE

DIAMONDS & FINE JEWELRY

Ring Size Finder

1. The bar to the left must measure exactly **2 inches**.

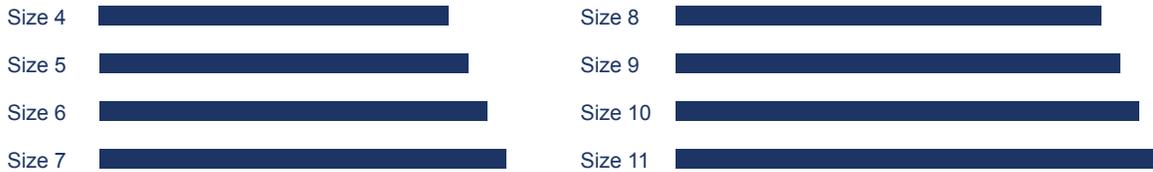

*Check for accurate page scaling

2. Print this page at full size. Make sure that scaling is set as "Do Not Scale".

Method One

Measure your finger with a non-stretchy string or a strip of paper (about 6" long and 1/4" wide). *It is important to make sure that the string or paper is wrapped around the base of your finger snugly. Mark where the string or paper overlaps, forming a complete circle around your finger. To determine your ring size, compare the string or the paper to the bars below. If you are in between ring sizes, DreamStone will gladly build you a half size. (ex. Indicate 4.5 as your size if the mark on your string or paper falls in between sizes 4 and 5.)

Method Two

Compare a ring that you wear on the finger which you intend to purchase the ring for to the circles above. Make sure the inside of the ring lines up with the outside of the circle. If you are in between ring sizes, you may want to order the half size in between the two sizes or order the larger size. *It is much easier for a jeweler to size a ring down rather than up.

Measurement Scale

Ring Size (usa)	Measured Length (inches)	Measured Length (mm)	Ring Size (usa)	Measured Length (inches)	Measured Length (mm)
4	1 13/16	46.5	7.5	2 1/4	55.3
4.5	1 7/8	47.8	8	2 5/16	56.6
5	1 15/16	49	8.5	2 3/8	57.8
5.5	2	50.3	9	2 7/16	59.1
6	2 1/16	51.5	9.5	2 1/2	60.3
6.5	2 1/8	52.8	10	2 9/16	61.6
7	2 3/16	54	10.5	2 5/8	62.8

*Measuring your fingers when your hands are cold is not recommended because this is when your fingers are at their smallest.

*For the most accurate measurement, it is best to measure your fingers at the end of the day when your fingers are at their largest.
